

Budget — CAPEX & OPEX

CAPEX — One-Time Costs (at launch)		
Logo design	mid-tier freelancer, SVG + brand pack	€400–600
Animated logo (Lottie)	splash screen / loading state	€150–300
Sport exercise animations	10 × 2D clips in Lottie format	€4,000–8,000
Apple Developer Account	App Store publishing, year 1	€99
Google Play Developer	one-time registration	€25
Domain name	.app or .com, year 1	€10–20
Test devices (if needed)	iPhone + Android, refurbished	€0–1,100
CAPEX Total		€4,700 – €10,100

OPEX — Monthly Costs at MVP (~50–500 users)		
AWS EC2 (1× t3.small)	app server	~€14/mo
AWS RDS (PostgreSQL db.t3.micro)	database	~€13/mo
AWS S3 (~10 GB)	media + backups	~€1/mo
AWS CloudFront (~50 GB)	CDN media delivery	~€4/mo
Data egress (~20 GB)	API responses	~€2/mo
SendGrid Essentials	transactional email	~€19/mo
Auth0	free tier (<25k MAU)	€0
Firebase FCM	push notifications	€0
GitHub Actions	CI/CD, free 2000 min/month	€0
Sentry	error monitoring, free tier	€0
Route 53 DNS	domain routing	~€1/mo
Stripe / Stripe Connect	variable — 2.9% + €0.30 per transaction	variable
OPEX MVP (excl. VAT, excl. Stripe)		~€54–55/month
+ 20% VAT (EU) = ~€65–67/month all-in		

OPEX — Monthly Costs at Scale (1,000–10,000 users)		
AWS EC2 (2× t3.medium, reserved)	app servers	~€34/mo
AWS ALB	load balancer	~€19/mo
AWS RDS (db.t3.medium)	database upgrade	~€49/mo
AWS S3 (~200 GB)	growing media library	~€5/mo
AWS CloudFront (~500 GB)	CDN at scale	~€40/mo
Data egress (~200 GB)	API + media	~€18/mo
AWS Lambda	~10M background invocations	~€2/mo
Auth0 Essential	1k–5k MAU with MFA	€35–100/mo
SendGrid Pro	~200k emails/month	~€85/mo
Sentry Team	50k errors/month	~€25/mo
GitHub Actions Team	CI/CD	~€12/mo
Apple Developer (annual)	amortised monthly	~€8/mo
Stripe / Stripe Connect	variable — 2.9% + €0.30/txn + \$2/coach/mo	variable
OPEX Scale (excl. VAT, excl. Stripe)		~€330–400/month
+ 20% VAT (EU) ≈ ~€400–480/month all-in		

SCALING VIABILITY CHECK

Does the architecture hold up financially as users grow?

Metric	MVP (500 users)	Scale (10,000 users)
MONTHLY INFRA COST	~€67	~€450
COST PER USER	~€0.13	~€0.05
EXAMPLE GMV (AVG. €60 BOOKING)	~€30,000 500 bookings/mo	~€600,000 10,000 bookings/mo
PLATFORM COMMISSION (15%)	~€4,500	~€90,000
STRIPE FEES (~3%)	~€900	~€18,000
INFRA AS % OF NET REVENUE	~1.9%	~0.6% Economies of scale confirmed

Conclusion: Infrastructure costs are minimal and shrink as a percentage of revenue as the platform grows. The primary risk at MVP stage is user acquisition cost — not infrastructure. The business model is financially viable at all modelled scales.

All pricing as of February 2026. Verify directly with each provider before procurement. USD amounts should be converted at the prevailing rate. EU VAT applies to most digital services for non-VAT-registered French entities.
